

Reflective Insulation

> Data Sheet

> Description

Suitable for roofs & walls	BBA Approved	NHBC Approved	Manufactured in the UK
Ultra thin and efficient	Warm in Winter	Cool in Summer	Eliminates Cold Bridging

Description

Alumaflex® insulation is a sophisticated 14 layer radiant barrier of low emissivity.

Applications

Alumaflex® insulation is suitable for use in walls and roofs. Its flexible properties make it ideal for loft conversions , timber frame and barn conversions.

Performance

Alumaflex® Insulation carries BBA certificate 10/4789 and LABC (Local Authority Building Control) approval.
