IndiLoft

Light, healthy, soft to touch, carbon negative and vapour breathable loft insulation batts made with natural fibres including UK hemp.

- Light density, easy, affordable install in loft/cold roof applications.
- Made with UK grown industrial hemp.
- Healthy and soft to touch for installers.
- Large net negative embodied carbon savings.
- Exceptional vapour transport – keeping buildings dry and healthy. Ideal for traditional retrofits.
- Warm in winter, cool in summer. Indoor temperatures and humidity stay comfortably even because IndiLoft naturally regulates both.
- Healthy indoor air quality.
- Durability tested under extreme conditions.
- Friction fit to prevent air gaps and thermal bridges.

Storage and handling

Keep dry during storage and delivery.

Installation

Refer to installation guide for recommendations. Fit between joists. Best cut with IndiNature insulation saws or powered dual-blade reciprocating saws. Ensure continuous airflow from eaves in rafter installs and 50mm air gaps to sarking. Further details on request.

Environmental impacts

IndiLoft has a net storage of carbon. It reduces waste because it can be reused at end of life or offcuts can be shredded and made into more of the same product.

Available formats*

Dimensions (mm)	Thicknesses (mm)
370 x 1200	100, 140
440 x 1200	100, 140
570 x 1200	100, 140

***Other sizes may be available on request.**

Technical data

Thermal conductivity λ	0.044 W/m.K
Bulk density ρ	35 kg/m^3
Vapour diffusion resistance μ	1.5
Reaction to Fire	E
