

A NEW NAME FOR A ROCKING RANGE

with **ECOSE[®]**
TECHNOLOGY

Did you know that Earthwool Universal Slab is now known as
Earthwool Building Slab

From 1st March 2013 the existing range of Earthwool Universal Slab will be known as **Earthwool Building Slabs**.

BENEFITS

Earthwool Building Slab

A semi-rigid to rigid rock mineral wool slab with excellent acoustic, thermal and fire properties.

Where to use it

This is a multi-purpose product particularly suited to partitions, flooring and pitched roofs in residential and non-residential buildings.

Features

- A+ generic BRE Green Guide rating
- Made with ECOSE[®] Technology
- Made using recycled materials
- Unbeatable A1 fire classification
- Range of densities up to 140kg/m³ for specific applications

energy saving

warmth

quietness

fire protection

sustainability

We also now have a 400mm Earthwool Flexible Slab product

We are introducing 400mm wide Flexible Slab in the popular thicknesses of 140mm / 100mm / 60mm / 50mm

Thickness	Product Code
140	418198
100	418195
60	418190
50	418183
