Primur® Roll

Safety Information Sheet

version: 1 revision date: 08.06.2026

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product form	Product
Product name	Primur® Roll

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	Adhesive tape
Uses advised against	No information available

1.3. Details of the supplier of the safety data sheet

SIGA Cover AG
Rütmattstrasse, 7
CH– 6017 Ruswil
Switzerland
T +41 (0) 41 499 69 69
technik@siga.swiss - www.siga.swiss

1.4. Emergency telephone number

Emergency number	+41 41 499 69 69 during office hours

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

This product is an article and therefore the creation of a Safety Data Sheet (SDS) is not legally required. This safety information sheet is not subject to the formal requirements of the REACH Regulation and has been created on a voluntary basis to provide information regarding safe handling, safe use and environmental protection.

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Classification according to Regulation (EC) No. 1272/2008 not applicable

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Labelling according to Regulation (EC) No. 1272/2008 not applicable

2.3. Other hazards

There are no known hazards associated with the product. The ingredients in this preparation do not meet the criteria for classification as PBT or vPvB or as substances with endocrine-disrupting properties.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Chemical characterisation

Acrylic adhesive

No substances listed in the SVHC list above the threshold value of 0.1% (w/w) and no substances listed in Annex XIV of the REACH Regulation are contained.

SECTION 4: First aid measures

4.1. Description of first aid measures

No special measures required. After skin contact with adhesive, wash hands with soap and water. If irritation persists, seek medical advice.

4.2. Most important symptoms and effects, both acute and delayed

When used as intended, there is no danger to human health.

4.3. Indication of any immediate medical attention and special treatment needed

No further relevant information available.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	Adapt extinguishing measures to the surrounding fire.

5.2. Special hazards arising from the substance or mixture

No hazards under normal conditions of use and storage.
In case of fire, dangerous combustion gases such as carbon monoxide or carbon dioxide may be produced.

5.3. Advice for firefighters

Protection during firefighting	Do not attempt to work without suitable protective equipment. Self-contained breathing apparatus. Full protective clothing.
Other information	Fire residues and contaminated extinguishing water must be disposed of in accordance with local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

No special protective measures required.

6.2. Environmental precautions

Avoid release into the environment.

6.3. Methods and material for containment and cleaning up

Collect mechanically.

6.4. Reference to other sections

See also sections 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

No special protective measures required.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions	Store in a cool, dry place

7.3. Specific end use(s)

No information available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No information available.

8.2. Exposure controls

Protective and hygiene measures

Wash hands before breaks and at the end of work.

Personal protective equipment

No special protective equipment required.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Solid
Colour	As specified in the product data sheet
Odour	Faint inherent odour
Melting point	Not available
Freezing point	Not available
Boiling point	Not available
Flammability (solid, gaseous)	Not available
Explosion limits	
Lower explosion limit (LEL)	Not applicable
Upper explosion limit (UEL)	Not applicable
Flash point	Not applicable
Auto-ignition temperature	Not applicable
Decomposition temperature	Not available
pH	Not applicable
Viscosity, kinematic	Not applicable
Solubility	Not applicable
Distribution coefficient n-octanol/water (Log Kow)	Not applicable
Vapour pressure	Not available
Density	Not available
Particle size	Not available

9.2. Other information

No information available.

SECTION 10: Stability and reactivity

10.1. Reactivity

The product is not reactive under normal conditions of use, storage and transport.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

No dangerous reactions are known under normal conditions of use

10.4. Conditions to avoid

No specific conditions to be avoided under the recommended storage and handling conditions (see Section 7).

10.5. Incompatible materials

No information available.

10.6. Hazardous decomposition products

No hazardous decomposition products are released when used as intended. In case of fire or intense heating, hazardous combustion gases may be produced.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

No toxicological data is available.

11.2. Information on other hazards

There are no known hazards associated with the product. It does not contain any ingredients with endocrine-disrupting properties.

SECTION 12: Ecological information

12.1. Toxicity

No toxicological data is available.

12.2. Persistence and degradability

No further information available.

12.3. Bioaccumulative potential

No further information available.

12.4. Mobility in soil

No further information available.

12.5. Results of PBT and vPvB assessment

The ingredients in this preparation do not meet the criteria for classification as PBT or vPvB.

12.6. Endocrine disrupting properties

No ingredients with endocrine-disrupting properties are contained.

12.7. Other adverse effects

There are no known hazards associated with this product.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Recommendation: Small quantities can be disposed of with household waste. Hand over to a hazardous waste collector or take to a hazardous waste collection point.

European Waste Catalogue 20 01 28 : 17 02 03 Plastics

SECTION 14: Transport information

Not classified as dangerous goods under transport regulations

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1 EU regulations

REACH Annex XVII (Restriction List)

Does not contain any substances listed in Annex XVII of the REACH Regulation

REACH Annex XIV (Authorisation List)

Does not contain any substances listed in Annex XIV of the REACH Regulation

REACH Candidate List (SVHC)

Does not contain any substances listed on the REACH Candidate List

POP Regulation (Persistent Organic Pollutants)

Does not contain any substances listed in the POP list (Regulation (EU) 2019/1021 on persistent organic pollutants)

Ozone Regulation (1005/2009)

Does not contain any substances listed on the ozone depletion list (Regulation (EC) No 1005/2009 on substances that deplete the ozone layer)

15.2. Chemical safety assessment

No further information available.

SECTION 16: Other information

CLP	Regulation (EC) No. 1272/2008 on the classification, labelling and packaging of substances and mixtures
PBT	Persistent, Bioaccumulative and Toxic
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
SVHC	Substances of Very High Concern, REACH - (EU) 1907/2006
vPvB	Very Persistent and Very Bioaccumulative

This information is based on our current state of knowledge and is intended to describe the product in terms of health, safety and environmental conditions. It must not be taken as a guarantee of specific properties of the product.
